

One-stop service - world-class, worldwide

Lafayette Field Research Center

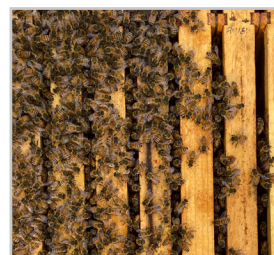

Welcome to Eurofins Agroscience Services

With over 30 years of experience, Eurofins Agroscience Services (EAS) offers outstanding technical knowledge and project management skills. EAS showcases a unique portfolio of expertise that provides analytical, regulatory and field support to plant breeders, agrochemical, biopesticide, biocide and fine chemical manufacturers.

Located near Lafayette, Indiana, the EPA Region 5 farm offers a clay loam with a 6.6 soil pH and supports a wide variety of crops, including:

- Soybean
- Corn
- Cotton
- Strawberry
- Canola
- Sunflower
- Apple
- Buckwheat

Other permanent crops are available across our extensive network of co-operator farms throughout the U.S. and across the globe.

One-stop service - world-class, worldwide
